

Welcome to our first Camping Magazine Awards in association with The Camping and Caravanning Club. The Awards have been created as part of *Camping's* 50th birthday celebrations to recognise the hard work and innovation that goes into improving the camping experience.

Our judging panel comprised of top camping journalists backed by our 30-household strong Readers' Panel, who had the task of assessing equipment and services currently available on the 2010 market. Amongst various criteria nominees for an award were judged on value for money; quality of service, materials, build and specification; excellence of design and styling; and safety.

So, before you invest in another piece of camping gear check out our Winners and Highly Commended. And make sure you book a pitch this year at one of our top 2010 campsites (page 41) – you won't be disappointed...

ALSO WINNER OF THE SMALL FAMILY/TOURER TENT CATEGORY

SUNNCAMP EVOLUTION 400DL RRP £242

The eye-catching Evolution 400 DL is the extended version of the popular 400 and continues that quirky style much loved by the judges. But head-turning looks are not everything – here we find that healthy dose of fun is camouflage for a very competent tent that should prove ample for all-year UK lowland camping in most conditions.
